

April 2020 Life Enrichment Activities

The Palms, The Oaks & Garden Creek Independent & Assisted Living Communities

At The Villages, the health, safety and comfort of our community members are always top priorities. Never has that been more true than right now as we all deal with the coronavirus (COVID-19) having arrived on the Central Coast.

Our staff and leadership team are doing everything in our power to protect the health and wellbeing of our residents and keep our entire Villages community in compliance with unfolding CDC, Federal, State and County guidelines.

In response to the confirmation of local coronavirus cases, we have suspended all group life enrichment activities until further notice. Our life enrichment team is offering a door-to-door service with a cart of suggested activities that can be conducted independently.

(crosswords, puzzles, art, books, videos, online resources such as exercise classes for seniors, cocktail service, snacks, and much more daily options to enjoy)

With your patience and understanding, we will get through this together!

Sincerely, Your Life Enrichment Team
